HARDER THAN DIAMONDS!

In proportion to its thickness, Graphene is the strongest material known.

Cilajet Ceramic with Graphene gives your vehicle's paint the added strength & shine to keep it looking new for years!

*WHAT IS GRAPHENE?

+ Graphene is the Strongest Material Ever Tested
+ Graphene is Proven to be Harder than Diamonds!
+ About 200 Times Stronger than Steel

According to Forbes Magazine (2019), "in proportion to its thickness, it is the strongest material known…"

Graphene is so revolutionary, that the two scientists who discovered Graphene in 2010 were awarded the Nobel Prize in Physics.

Cilajet Ceramic with Graphene is a revolutionary, proprietary formula designed to put a hard protective shell over your vehicle's paint and clearcoat. With Cilajet, your vehicle has extra protection against environmental elements, while maintaining a showroom-new shine for years to come!

Cilajet Ceramic with Graphene conforms to Commercial Aircraft specifications: Boeing D6-17487 Rev. T and Airbus AIMS09-00-02. The same Cilajet products designed to protect these aircraft are now available to protect your car, motorsport vehicle or RV.
