ANTI-THEFT PROGRAM

REST EASY KNOWING THAT, IF STOLEN,
YOUR VEHICLE CAN BE RECOVERED.

SIDE CARS

This document summarizes certain features of the Anti-Theft program. Please refer to the contract provisions for additional information including details of benefits, specific exclusions, conditions, and limitations.

DID YOU KNOW

A vehicle is stolen every 26 seconds.

More than one million vehicles are stolen every year and most are never recovered.

If you are lucky enough to get your vehicle back, it will likely require thousands of dollars in repairs on which you will have to pay an insurance deductible

HOW IT WORKS

Theft Protection can help by deterring professional thieves from making you their next target. The program utilizes a specialized etching process that makes your vehicle traceable by police.

If your vehicle is stolen and not recovered (deemed a total loss by your primary insurance carrier), the program will pay a replacement allowance of up to \$5,000* toward the purchase of a replacement vehicle from the original selling dealer who sold you this plan.

Get up to \$500 rental car allowance
